

OTHER DONATIONS WE ACCEPT

Thank you for expressing interest in making a donation to the Colorado Village Collaborative. We greatly appreciate your generosity. However, we kindly request that you take note of our limited storage space and staff capacity. At present, we are only able to accept certain items for donation, as per the list provided below. In the event that you wish to donate an item that is not included on this list, please do not hesitate to reach out to us via [email](#) in advance, so that we may verify whether an exception can be made. We are grateful for your understanding and cooperation in this matter, as it enables us to ensure that our donations are managed as efficiently and effectively as possible. Please do note that, regrettably, any items brought to our facility without prior communication will be unable to be accepted. Once again, thank you for your consideration and support.

Household Items

Our program facilitates the acceptance of new and gently-used household items to assist our members in the transitional housing process. This service is intended solely for community members who are in the process of transitioning into long-term housing and not for us to store on our sites. Providing household items eliminates the costly burden of furnishing a new home and creates a welcoming and comfortable atmosphere. It is imperative to note that all items must be in good, working condition, and we will not accept items that are dirty, torn, or stained.

To ensure that we have the necessary space and resources to accept your donation and transport the items, please contact us at info@covillageco.org. Please include information about the weight and dimensions of your item(s) in your email. Additionally, including a photo of your item is always helpful. Thank you for your support!
